

Measurements for Eyeballs

These are the size combinations that worked for me. You might have to play around with what looks best for you. The tricky part is figuring out how flat you need to press the pupil and iris before putting the white in. Let me know if you have questions!

Pupil	Iris
15mm	22mm

1.5 inch

12mm	15mm
------	------

1 1/4 inch

3/4 of 9mm	12mm
------------	------

1 inch

1/4 of 9mm	9mm
------------	-----

3/4 inch
