

# Measurements in grams/inch

# Zombie Bee

Below you'll find the approximate amounts of clay you need of each color for 1 Bee. If you want to make more bees adjust accordingly. Mix as much color as you like, one drop at a time. It's okay if it's pale, The soft pastels will make it pop!

## Amounts of Clay you **need to mix**:

light green clay	at least 100g
pink	12g
orange	2g*
Red	3g
Purple	2g*

Blood	1 tsp mod podge + red acrylic
-------	-------------------------------

Blood Mix: just add 1 small squeeze of paint till its pale red. It dries darker!!!

\*you wont need as much but I find it easier to mix at least 2 g.

## Amounts of Clay you **need to make**:

inside of mouth	2.5g/2.5inch	Wing	4g/2inch
eye	2g/1.75inch	Lips	3g/7inch
iris	0.05g/0.025	Stripe	5g(~10inch)
teeth	1g/0.5inch	Stinger	1g/1ich
1 brain half	6g	Tongue	3.8g/1.5inch
Bone (each ball)	1g/0.5inch	Bone (Stem)	1.2g/1.5inch
